Claim No. 219247-00	Insured's Name BRUHN FARMS JOINT VENTURE	Policy No. IA-000-120853	Date Of Loss 05/11/2012
------------------------	---	-----------------------------	----------------------------

Comments:

shatter loss damage some very heavy, high liability coverage. All of the previous loss information is entered on items that had shatter on this loss no. There were six adjusters that went down and counted out the shatter on all of these acres. All counts were made following procedure. Insured did have enough samples to count scattered throughout the fields. Insured was contacted several times during this process. Insured would not take time go along on any of this. He had one of his people go around and show us the fields. Insured does not agree on the loss and will not sign. I am instructed to send it in for payment. All previous losses were worked by out of state adjusters, see attachments.

Please use drop down arrow in each box to fill in answer:

A. Is Staging Correct?	YES
B. Were the correct charts/factors used?	YES
C. Do the acres reflect the percent of damage?	YES
D. Is complete documentation included for Non-Waiver situations?	N/A
E. Are all facts noted in the fact sheet?	Yes
F. Were the minimum number of counts taken?	YES
G. Was loss uploaded or mailed on a timely basis?	NO
H. Were NCIS procedures followed?	YES
I. Was the insured or authorized representative signature verified?	Will not sign
J. Was agent contacted by adjuster before and after the loss was completed?	YES
K. Are all signatures and pictures included?	YES

(HPP may not have the applicable signature at the time of field review.)

Date Reviewed with Adjuster: 11-27-12

Comments:
This loss was not submitted to the company until 9-26. Gaylen called me on 10-17 saying he needed some help on this claim because of all the acres to be looked at. On 10-22 there were six of us that started on this claim. There was 6500 acres of shatter to count. It was finished on 10-23. There were very good samples left to look at in all of these fields except one 77 acre field where no samples were left. No loss for this one. Most of the shatter was light but the acres to the south of Mapleton had some heavy shatter. I feel the loss was worked right, only wish we could have gotten it worked sooner.
